MISSION

With the rapid expansion of the Egyptian real estate market, aspiring advisors are constantly met with great selling opportunities and potential buyers are - in turn - constantly searching for the perfect home for themselves. We understand that it's sometimes not only difficult to constantly approach developers, but also a struggle to undergo the process of becoming a property advisor. If you have a client that is willing to buy primary property and make a great deal with guaranteed levels of commitment and service, you've come to the right place! We'll provide you with all the official documents you need to start your career. Once your career is launched, you'll only need to drop by the office when required.

WHY BOB

The grass is greener on both sides at BOB. Be prepared to start working in a convenient, time-efficient environment in which you can work on a freelance basis - even as a student - as you won't need to be at the office except when you have a client to attend to. Your full rights are also protected, as we offer the highest commission in the market. And if you don't have any experience in the market, no problem!
